

assisted in the building up of the City, and if I seem disrespectful in appellations, whoever remembers any teacher being designated "Mr.," except when approached in authority?

Finding temerity to worry this through;
 Wondering how I ever found the "nous"
 To tackle such a job as Ballaarat;
 Well, these pioneers are worthy, even that.
 Men and women, superfine as gold,
 Crossing an ocean through dangers untold;
 Gold, the magnet, a whole world drew,
 Want of it now has turned that same askew.

ROBERT GAY.
